Professional Summary

I am a multilingual cybersecurity and intelligence professional with over 10 years of operational experience in reconnaissance, threat detection, and security operations. Trained in network technologies, Linux, SQL, and practical information security through IT Academy STEP and Google Cybersecurity (Coursera). Seeking entry-level or internship roles (SOC Analyst, Threat Intelligence, IT Support) where analytical rigor, disciplined incident handling, and rapid learning deliver measurable security outcomes.

Core Skills

- Network protocols and TCP/IP fundamentals
- Linux system administration; SQL for log queries
- Python scripting for automation and log parsing
- SIEM basics and incident triage
- Threat modeling and familiarity with MITRE ATT&CK
- Vulnerability awareness and risk assessment
- Secure communications and operational security practices

Certifications

- Google Cybersecurity Professional Certificate Verification:
<https://www.coursera.org/account/accomplishments/professional-cert/WXGJOC90KXE7>
- Network Technologies & System Administration Certificate — IT Academy STEP, Dnipro, Ukraine (2005–2007)

Professional Experience

Private Military Contractor (PMC) — Various international security firms (2011–2018)

- Performed security operations and team coordination in high-risk maritime environments.
- Conducted surveillance, threat assessment, and operational reporting.
- Led small teams and supported mission planning and communications.

Military Service — Ukrainian Armed Forces

- Served roles focused on reconnaissance and intelligence.
- Gained experience in disciplined observation, secure communications, and structured reporting.

Education

- Bachelor of Finance and Economics — Dnipropetrovsk National University of Oles Gonchar (2012–2015)
- Associate Degree in Accounting — Dnipropetrovsk National College of Oles Gonchar (2010–2012)

Additional Information

- Languages: Russian (native); Ukrainian (native); English (professional)
- Portfolio: GitHub contains projects, write-ups, and certificates demonstrating practical skills and learning progress.
- Target roles: Cybersecurity Analyst Intern; SOC Analyst; Threat Intelligence Analyst; Junior Security Analyst; IT Support Technician; Security Operations Intern
